

Rosenthal Project

UPDATE 11

We're growing a new *car park*

May 2019

Current Status- On Programme

Mid 2020

Welcome to our May Project Update

With the temporary car park now open, structural works continue to the northern and western areas of the site.

Did you know?

Over 18,000 cubic metres of concrete have been poured into the project's structure.

Coming in 2020...

THE CANOPY LANE COVE

Birdwood Lane Temporary Car Park

A 45-space temporary car park is now available at the corner of Birdwood and Rosenthal Lanes, with the entry off Birdwood Lane. Refer to map overleaf. The new car park is conveniently located close to the Plaza and provides access to local shops and arcades.

Parking is free for two hours (once per day entry) between the hours of 8:00am - 6:00pm. Users must enter their licence plate number into the ticket machine to retrieve a ticket to display on their dashboard.

The Birdwood Lane temporary car park will be relocated in late 2019, when access will be provided to around 100 spaces in the lower basement levels of the permanent car park. Entry will be via Rosenthal Avenue. The existing temporary car park will not be relocated until access to this new section of car park is available.

Introducing The Canopy

The Rosenthal Project is creating a new community precinct in the heart of Lane Cove.

After inviting the community to choose a name in 2018, Council is pleased to announce the permanent name of the new precinct will be The Canopy Lane Cove

The Canopy name reflects the park with its extensive trees being the crown of the building.

Business Parking Permits

Council's three-month Business Parking Permit continues. Recipients of the random draw can park in designated business parking spaces in Sera Street (behind Coles).

Entries for the next draw close Sunday 2 June and new permits will be valid from Monday 10 June. Each business is allowed up to five entries per draw and there is a limit of one entry per staff member. Further details are available at www.lanecove.nsw.gov.au/rp including the conditions of the permit and eligibility.

What's happening in construction?

Substation works along Finlayson Street and Rosenthal Avenue continue. These works will be undertaken progressively over the coming months to have the permanent power supply commissioned by October.

We are working hard to minimise disturbances to residents and businesses and thank you for your patience as we complete these works.

Upcoming Construction Activities

May/June 2019

Construction of the building structures continues

Substation works in Finlayson Street continue

Fit out to lower levels of car park continues

Waterproofing of the park slab commences

Structural steel works commence

July 2019

Removal of gantry in Birdwood Lane

Rock wall works along Rosenthal Avenue commence

Mid 2020 Project completion
