We're growing a new *car* park...

24th January 2019

Dear Resident/Business Owner

In February, we will commence the installation of water main infrastructure to Finlayson Street. These works will require changes to traffic, and temporary diversions of Finlayson Street on days when the works are being undertaken.

What we are doing

- Upgrading and extending the existing water main to Finlayson Street.
- These works will involve digging, jack hammering, saw cutting, road resurfacing, and asphaltting. A small excavator and construction vehicles will be in operation during the excavation of the trench.

When

- Works will commence on **Wednesday 30 January 2019** to 13 February 2019 (weather permitting).
- All works will take place during the approved hours of 7:00am- 5:30pm Monday to Friday, and 7:00am-4:00pm on Saturdays.
- Works will not be undertaken on Sunday, public holidays or at night.

What to be aware of

Traffic and Pedestrian Changes

- A contra-flow will be set-up in Finlayson Street in the immediate vicinity of the work area. Local vehicles will still be able to access properties in the street via Cox's Lane and Rosenthal Avenue. Traffic will be regulated by appropriate implementation of traffic control measures.
- Pedestrian access along Finlayson Street will be managed by traffic control to ensure safe access at all times.

Noise and vibration

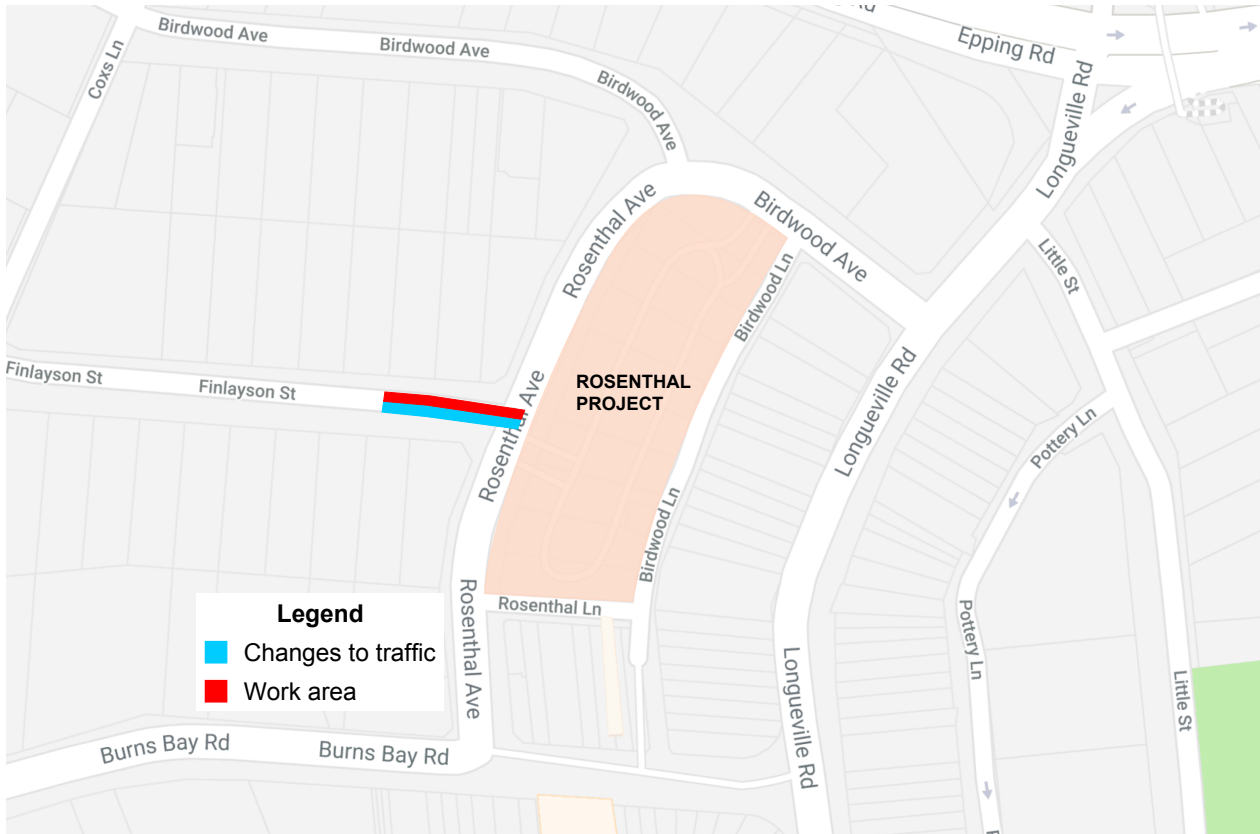

- These works are expected to generate medium levels of noise, and low levels of vibration.

Please find a map overleaf detailing where the works will be taking place at the eastern end of the street.
